TO THE RESIDENTS OF THE BOROUGH OF FRANKLIN

Butler Street, McCann Street, Stanaback Road, North Street, Main Street Parking Lot

Re: 2025 Road Resurfacing Program

Dear Resident:

Milling is expected to commence on or about Wednesday, October 22 and will follow the affected areas above. During milling activities, the roadway will remain open to local traffic only. The traveling public can expect delays because of workers, equipment and/or trucks. The milled surface will be rough and uneven, so we ask that you use caution.

Paving is expected to commence on or about one week from milling and will take approximately 5 days. During paving activities, access to the roadway will not be allowed except for legitimate emergencies. The roadway will be tack coated and have a paving machine, several asphalt delivery trucks and rollers that will not allow vehicular travel. In addition, once a new road surface is placed, traffic will not be allowed for several hours to allow the asphalt to cool. We ask that you make arrangements accordingly if you must use your vehicle during this time.

Vehicles cannot be parked on the roadway or in the parking lot during milling and paving operations and all vehicles must be relocated before 7:00am on October 22. **Vehicles will be towed at owners expense if necessary.**

Your garbage pick up may or may not be affected by these activities.

Construction activities are weather dependent and may be delayed by inclement conditions. The Borough will try to keep you informed if the anticipated schedule changes.

Please check the Franklin Borough Website for updates at www.franklinborough.org.

Very truly yours,

Borough of Franklin
