Greetings Borough of Franklin Resident,

This letter is to inform you that around the date of September 21, 2026, paving and curb work will be conducted on Master, Warren and Green Streets. The contractors involved with this project will make residents aware of when vehicles should be removed to prevent any damages and limit the inconvenience during this process.

The final paving of your street and associated improvements I'm sure will be appreciated by you and Franklin Borough. Thank you for working with us through this process.
